Identity & Mission

At St Joseph's we believe we are:

- A community who celebrates our Catholic Traditions, names Jesus Christ and promotes Gospel values as a framework for participation in society.
- A school where respect for self, others and environment is nurtured in partnership with all community members.
- A community that strives to educate and challenge the whole child to reach their full potential and become life long learners.
- A community that challenges all children by planning and facilitating enriching curriculum experiences to prepare them to be responsible local and global citizens.
- A community committed to social justice who participates in learning about Aboriginal Australia and actively working for Reconciliation.
